Jacado SuDoKo allows playing endless sudokus. Both for fun and for prizes. Jacado SuDoKu has 3 different games modes: Daily, Random & Empty. Playing the daily mode allows you, each day, to play 3 new sudokus (easy, medium & hard). Solving each one of these sudokus grants you with points tracked on our server. We have prepared a separated top score table for each month. Each month, the competition starts again. Special prizes announcements are presented within a pop up window each time you start the game. Apart of playing for prizes, you can also choose to play for fun. Choosing the Random mode, you can play endless sudokus served from our server. Choosing the Empty mode, you can use this product in order to enter a sudoku from another source (e.g. newspaper...) and use this product's special features in order to solve it. This game includes inner support for various languages including english, french, deutch, italiano, romana, russian & hebrew. Inner help tips will assist you understanding the various features this game includes. The prize for this month best player is a collection 5 games selected by the winner from our site.

Jacado SuDoKu has 3 different games modes: Daily, Random & Empty.

Daily SuDoKu

Each day three new sudokus are available. Each one of them has a different difficulty level (easy, medium & hard). In order to play the daily sudoku there is a need to register and provide an email address and a mobile telephone number. The registration is free.

When solving a daily sudoku your score is automatically sent to our server. Top score is tracked on a monthly basis. The best player each month receives a prize. Each time you run this game a pop up window tells about current month's prize! You can get the top score table for any month you choose by selecting the "Hall of Fame" option from the top menu.

Random SuDoKu

Playing in the random mode you can get and play endless sudokus from our server. You can't submit them in order to get points. You can play them for your fun only!

Empty SuDoKu

The empty mode allows you to take a sudoku puzzle from another source (newspapaer, magazine etc...), enter its numbers into this game and use this game special features in order to solve it.

This game includes special features that come to assis when solving the sudokus:

Easiest Cell

Special color mark for the next easiest cell to solve.

Possible Numbers

Showing all possible numbers inside each cell (or inside the cell on focus... according to your choice).

The score you get when playing daily sudokus on a full commercial product:

Easy Level - 4 pts

Medium Level - 8 pts

Hard Level - 12 pts

When playing on a sponsored ad product, the score is:

Easy Level - 3 pts

Medium Level - 6 pts

Hard Level - 9 pts
